

Model PM18

Automatic Patty Forming Machine

UL EPH Classified NSF/ANSI 8 Commercial Powered Food Preparation Equipment

Height: 36"

Motor: 1/2 HP

Depth: 34"

Volts: 115

Width: 34"

Amps: 13

Weight: 225 lbs

Cycle: 60

Production: 1800 per hour standard

Mold Plate: Up to 3/4" thick in any shape

FACTS AND FEATURES OF THE MODEL PM18:

- Counter top ready
- Stainless steel cabinetry
- Volume and pressure controlled simply with the location of a single ring pin
- Interleaves paper between patties
- Stacks patties perfectly
- Reload paper without stopping the machine
- Riser Platform for increased stacking and easy cleaning
- Quick Disassembly for cleaning
- Drive mechanism engineered for increased durability
- Built in circuit breaker
- 1 year parts warranty

EASY MOLD PLATE CHANGES

The convenient attachment of the connecting arm allows for quick and easy mold plate and spacer plate changes

HEAVY DUTY CONSTRUCTION

The Model PM18 has a durable feeder, a solid steel plate frame construction, and two heavy duty rated roller chains

MOLD PLATE SHAPES

- Virtually any shape can be molded: Square, round, oval, chop, homestyle, even meatballs
- Varied thicknesses up to 1-1/2"
- Capable of Molding from a fraction of an ounce to 8 oz. standard

FEED CONTAINERS FOR THE MODEL PM18

LOW PROFILE STAINLESS STEEL FEED TRAY

- 60 lb capacity
- Heavy gauge stainless steel
- 1 piece body for quick clean up

STAINLESS FEED PAN

- 40 lb capacity
- Stainless steel and aluminum construction
- Easy access from all sides

PLASTIC COVERED FEED TRAY

- 75 lb capacity
- Hi-density polyethylene, F.D.A. approved
- Covered for easy operation
- Heavy wall construction stainless steel reinforced

STAINLESS STEEL COVERED FEED TRAY

- 125 lb capacity
- Heavy gauge stainless steel
- 1 piece body construction
- Covered for easy operation
